INDEX TO Vol. VIII (B).

AUTHORS' INDEX.

Ayyangar, G. N. Rangaswami, and Ayyar, M. A. Sankara	Linkage between a panicle factor and the pearly-chalky mesocarp factor (Zz) in sorghum, 100.
Ayyangar, G. N. Rangaswami, and Nambiar K. Kunhikrishnan	A ' Tiny ' sorghum, 309.
Ayyangar, G. N. Rangaswami, Rao, V. Panduranga, and Ponnaiya, B. W. X.	The occurrence and inheritance of purple-tipped grains in sorghum, 396.
Ayyangar, G. N. Rangaswami, Rao, V. Panduranga, and Rajabhooshanam, D. S.	Sorghum—size relationships of seed, embryo, seedling and the first seedling leaves, 151.
Ayyangar, G. N. Rangaswami, Rao, V. Panduranga, and Reddy, T. Venkataramana	The occurrence and inheritance of purple anthers in sorghum, 317.
Ayyar, M. A. Sankara ..	*See* Ayyangar and Ayyar.
Bhatia, B. L., and Setna, S. B.	On some gregarine parasites from certain polychete worms from the Andaman Islands, 231.
Chaudhuri, H. ..	Molds of the Punjab—II, The Penicillia, 93.
Chaudhuri, H., and Umar, Mohd.	Molds of the Punjab I, The Aspergilli, 79.
Chopra, R. S. ..	Notes on Indian hepatics, II, Sikkim Himalayas and Bengal, 427.
Das, S. M. ..	On *Ecteinascidia bombayensis* N. Sp. (A new Ascidian from Bombay), 295.
Ganapathy, C. V., and Sastri, B. N.	The natural activators of papain, 399.
Kausik, S. B. ..	Studies in the Proteaceæ, II. Floral anatomy and morphology of *Macadamia ternifolia* (F. Muell), 45.
Kostoff, Dontcho ..	Heterochromatin, somatic "Crossing-over" and the interchange hypothesis between non-homologous chromosomes, 11.

Lal, K. N. .. *See* Singh and others.

Luthra, Jaichand, Sattar, Abdus, and Singh, Sardul — Occurrence of stem canker disease of sugarcane (*Cytospora sacchari* Butl.) in the Punjab, 188

Mathur, L. P., and Sharma, Munshi Lal — Observations on the abnormalities in the common Indian frog, *Rana tigrina* Daud, 182.

Mehra, P. N. .. A study of the chromosome number in some Indian members of the family *Codoniaceæ*, 1.
Abnormal sporocarps in *Marsilea minuta* Linn., 8.
Apogamy in *Adiantum lunulatum* Burm., Part I (Morphological), 192.
Apogamy in *Pteris biaurita* Linn., 202.
Some abnormalities in the female strobilus of *Ginkgo biloba* L., 211.
The germination of pollen grains in artificial cultures in *Ephedra foliata* Boiss and *Ephedra gerardiana* Wall., 218.

Menon, M. Krishna .. The early larval stages of two species of *Palæmon*, 288.

Menon, Ramdas .. Two new species of Pachytroctidæ (Copeognatha), with a note on the family, 280.

Nambiar, K. Kunhi-krishnan — *See* Ayyangar and Nambiar.

Ponnaiya, B. W. X. .. *See* Ayyangar and others.

Prasad, K. .. *See* Singh and others.

Prasad, S. .. *See* Singh and Prasad.

Rajabhooshanam, D. S. .. *See* Ayyangar and others.

Randhawa, M. S. .. Observations on some zygnemales from Northern India—Part I, 109; Part II, 336.

Ranganathan, V., and Sastri, B. N. — Procedure for determining the nature of the degradation products during Proteolysis, 243.
Digestibilities of the proteins of Bengal gram *Cicer arietinum* Linn., 367.

Rao, C. Bhashyakarla .. The myxophyceæ of the Orissa Province, India—I, 157.

Rao, V. Panduranga .. *See* Ayyangar and others.

Reddy, A. Ramakrishna .. The cytology of digestion and absorption in the crab *Paratelphusa* (*Oziotelphusa*) *hydrodromus* (Herbst), 171.
The development of Anuran kidney, Part I. The development of the mesonephros of *Rhacophorus maculatus* Boulenger, 249. II. The development of the mesonephros of *Bufo melanostictus* Schneider, 413.

Reddy, T. Venkataramana	*See* Ayyangar and others.
Sastri, B. N. ..	*See* Ranganathan and Sastri.
	See Ganapathy and Sastri.
Sattar, Abdus ..	*See* Luthra and others.
Setna, S. B. ..	*See* Bhatia and Setna.
Sharma, Munshi Lal ..	*See* Mathur and Sharma.
	The subcutaneous Corpora Adiposa in *Rana tigrina* Daud., 405.
Sharma, N. L.	Felspars from the pegmatites of Kodarma, Bihar, 266.
Sibtain, S. M. ..	Studies on the caudal autotomy and regeneration in *Mabuya dissimilis* Hallowell, 63.
Singh, B. N., Lal, K. N., and Prasad, K.	Photosynthetic specificity in relation to biochemic constitution of leaves, 301.
Singh, B. N., and Prasad, S.	The effect of chlorine in relation to age upon the growth and composition of wheat, 324.
Singh, R. N. ..	The œdogoniales of the United Provinces, India—I, 373.
Singh, Sardul ..	*See* Luthra and others.
Umar, Mohd. ..	*See* Chaudhuri and Umar.

TITLE INDEX.

Anuran kidney, development, I, II (Reddy), 249, 413.

Apogamy in *Adiantum lunulatum* Burm., I (Mehra), 192.

Apogamy in *Pteris biaurita* Linn. (Mehra), 202.

Caudal autotomy and regeneration in *Mabuya dissimilis* Hallowell, studies (Sibtain), 63.

Chromosome number in some Indian members of the family *Codoniceæ*, a study (Mehra), 1.

Chromosomes, non-homologous, interchange hypothesis between, heterochromatin, somatic "crossing-over" and the (Kostoff), 11.

Cicer arietinum Linn., Bengal gram, digestibilities of the proteins (Ranganathan and Sastri), 367.

(*Cytospora sacchari* Butl), Stem Canker Disease of Sugarcane, Occurrence, in the Punjab (Luthra and others), 188.

Ecteinascidia bombayensis n. sp. (a new Ascidian from Bombay) (Das), 295.

Ephedra foliata, Boiss, the germination of pollen grains in artificial cultures (Mehra), 218.

Ephedra gerardiana Wall., the germination of pollen grains in artificial cultures (Mehra), 218.

Felspars from the pegmatites of Kodarma, Bihar (Sharma), 266.

Ginkgo biloba L., female strobilus of, some abnormalities (Mehra), 211.

Hepatics, Indian, notes, II (Chopra), 427.

Molds of the Punjab, I (Chaudhuri and Umar), 79.

Molds of the Punjab, II (Chaudhuri), 93.

Myxophyceæ of the Orissa Province, India—I (Rao), 157.

Oedogoniales of the United Provinces, India—I (Singh), 373.

Pachytroctidæ (Copeognatha), two new species, with a note on the family (Menon), 280.

Palæmon, the early larval stages of two species, 288.

Papain, natural activators (Ganapathy and Sastri), 399.

Parasites, gregarine, some, from certain polychete worms from the Andaman Islands (Bhatia and Setna), 231.

Paratelphusa (*Oziotelphusa*) *hydrodromus* (Herbst), crab, the cytology of digestion and absorption (Reddy), 171.

Photosynthetic specificity in relation to biochemic constitution of leaves (Singh and others), 301.

Proteaceæ, studies, II (Kausik), 45.

Proteolysis, Procedure for determining the nature of the degradation products during (Ranganathan and Sastri), 243.

Rana tigrina Daud., common Indian frog, observations on the abnormalities (Mathur and Sharma), 182.

Rana tigrina Daud, the subcutaneous corpora adiposa (Sharma), 405.

Sorghum, a " Tiny " (Ayyangar and Nambiar), 309.

Sorghum, linkage between a panicle factor and the pearly-chalky mesocarp factor (Zz) (Ayyangar and Ayyar), 100.

Sorghum—size relationship of seed, embryo, seedling and the first seedling leaves (Ayyangar and others), 151.

Sorghum, the occurrence and inheritance of purple anthers (Ayyangar and others), 317.

Sorghum, the occurrence and inheritance of purple tipped grains (Ayyangar and others), 396.

Sporocarps, abnormal, in *Marsilea minuta*, Linn. (Mehra), 8.

Wheat, the effect of chlorine in relation to age upon the growth and composition (Singh and Prasad), 324.

Zygnemales from Northern India, observations, I, II, 109, 336.
